Engineering, Construction & Technical Consultancy

M & M Engineering & Consultancy CC is an independent Namibian engineering consultancy and multi-disciplinary contracting firm based in Windhoek. Established in 2013 and registered across Namibia and the Southern African region, our practice pairs practical site delivery with formal design coordination and procurement.

Our engineering and construction teams deliver complex civil structures, medium- and low-voltage power networks, hospitals, police stations, tertiary campus hostels, mass housing, air-conditioning plants and water pipelines for government ministries, regional councils, state enterprises and commercial developers.

Every project runs under named technical leadership—uniting registered engineers, quantity surveyors, technologists and vetted subcontractors—with strict adherence to the Labour Act, 2007 and Government Notice No. 156 occupational safety regulations.

OPERATIONAL SCOPE

13 Integrated Disciplines · Direct Owned Fleet & HV Testing Gear · Zero-LTI Safety Focus Across All Namibian Regions

REGIONAL & TENDER READINESS

Active site mobilisation across Khomas, Kavango East & West, Oshana, Ohangwena, Oshikoto, Omusati, Zambezi, Otjozondjupa and Kunene, backed by owned MAN 4x4 crane transport, 14-ton stringing gear and calibrated 10 kV instrumentation.

Vision, Mission & Operational Merits

OUR VISION

To provide engineering ingenuity and technical services across every site and sector we serve.

OUR MISSION

To be the most sought-after provider of engineering and technical services for Namibia and the SADC region.

STRATEGIC CONSULTING

- Competitive tendering & tender compliance preparation
- Project management effectiveness audits & recovery plans
- Identifying local and regional infrastructure partnerships
- Environmental Impact Assessments (EIAs) & site remediation

GOVERNANCE COMMITMENT

Transparent client reporting, verified BOQ valuation, statutory compliance and single-point leadership accountability from tender award to practical completion.

Company Merits

01 · STRICT ETHICS
Tailored solutions meeting client business objectives while upholding civil, electrical and statutory codes.

02 · PROACTIVE VALUE
Continuous review of site conditions to spot practical cost savings and resilience gains beyond baseline contract terms.

03 · BESPOKE ENGINEERING
Adaptive field delivery engineered for remote Namibian terrains—from Kunene veterinary gates to Zambezi bases.

04 · CROSS-DISCIPLINARY
Architects, quantity surveyors, engineers and testing technicians operating under unified programme control.

05 · CRISIS READINESS
Direct leadership accountability, transparent ministry liaison and rapid turnaround when site conditions shift.

06 · 24/7 AVAILABILITY
Dedicated Windhoek technical dispatch for essential hospital, power and municipal infrastructure works.

13 Integrated Engineering & Construction Disciplines

M & M Engineering & Consultancy

01 · ELECTRICAL ENGINEERING
HV/MV switchgear, transformer substations, power reticulation, lighting, backup generators, PLC/SCADA, fire detection and instrumentation.

02 · CIVIL ENGINEERING
Underground and elevated concrete structures, silos, cooling towers, precast concrete, pipe racks, culverts, structural steel and industrial buildings.

03 · TELECOMMUNICATIONS ENGINEERING
Carrier and campus fibre-optic backbones, splicing and OTDR testing, lattice towers, equipment shelters and structured network cabling.

04 · MINING ENGINEERING
Surface and underground mine infrastructure support, plant electrical reticulation, earthworks and utility civil packages.

05 · INFORMATION TECHNOLOGY SYSTEMS
Enterprise data networks, active telemetry, security and building management integration, and institutional IT infrastructure.

06 · ENERGY SERVICES (SOLAR / HYDROGEN)
Grid-tied solar PV, hybrid microgrids, clean-energy substations and hydrogen-ready energy installations — design through construction.

07 · MECHANICAL ENGINEERING
Static and rotary plant installation, process piping, fire-fighting networks, pipe gantries, cranes, HVAC, insulation and scaffolding.

08 · ROAD CONSTRUCTION & HIGHWAYS
Highways, paved urban roads, bridges, underpasses, major earthworks, street lighting, traffic signalisation and TSE pipelines.

09 · GEOLOGICAL SERVICES
Geotechnical site investigations, ground condition verification and subsurface support for major infrastructure corridors.

10 · BUILDING CIVILS & CONSTRUCTION
Design coordination, 3D planning, site clearing, grading, general contracting and turnaround building refurbishments.

11 · ARCHITECTURAL SERVICES
Functional architectural design, space planning, facade cladding, curtain walling and interior build coordination.

12 · PROJECT MANAGEMENT & CONSULTING
Overall planning, tendering, EPIC procurement, HAZOP subcontractor supervision, cost control and strategic advisory.

13 · RAILWAY INFRASTRUCTURE
Trackside civils, station precincts, level-crossing civil/electrical interfaces and rail corridor support works.

Namibian Clean Energy & Utility Infrastructure (Solar / Hybrid Systems)

HV/MV Switchgear & Protection

Railway Infrastructure & Civils

Highways, Grading & Earthworks

Detailed Engineering, Construction & EPIC Specifications

M & M Engineering & Consultancy

Electrical & Instrumentation (E&I)

- Supply & erection of transformers, switchgear & generators
- Power distribution, MV/LV reticulation & street lighting
- Lighting, internal small power & earthing networks
- Fire detection, alarm & security access systems
- Programmable Logic Control (PLC) & SCADA supervision
- Structured fibre-optic cabling & process instrumentation

Mechanical & HVAC Works

- Supply, fabrication & erection of static process plant
- Supply & erection of rotary machinery & cranes
- Process piping, utility pipelines & pipe gantries
- Fire-fighting ring mains, hydrants & sprinkler systems
- Commercial/hospital HVAC & mechanical ventilation
- Industrial thermal insulation, coatings & scaffolding

Highways, Roads & Water Infrastructure

- Highways, urban roads, underpasses, bridges & interchanges
- Major earthworks, land reclamation & turnkey infrastructure
- Industrial & petrochemical plant site development
- Water supply, sewage, drainage & Treated Sewage Effluent (TSE)
- Signalisation, traffic light controls & corridor lighting
- Tunnelling works with associated E&M systems

Civil Works & General Contracting

- Underground & elevated reinforced concrete structures
- Silos, cooling towers, precast units, pipe racks & culverts
- Structural steelwork & turn-key industrial buildings
- Enabling works, underground utilities & security fencing
- Curtain wall facades, stone cladding & interior finishes
- Commercial centres, hostels, police stations & hospitals

Bulk Water, Sewage & Drainage Reticulation

Design Coordination, HAZOP Review & Quality Assurance

PROJECT DELIVERY GOVERNANCE

Every contract follows structured project governance: scope scoping, site assessment, detailed BOQ costing, contractor & specialist interface management, testing/commissioning witness certification and statutory handover documentation.

Verified Namibian Employers & Consulting Associates

M & M Engineering & Consultancy

M & M Engineering has delivered 25 major contracts across government ministries, regional councils, tertiary institutions and state enterprises alongside Namibia's leading consulting engineers and architects:

Republic of Namibia
Safety & Security, Works, Health, Education, Trade & Agriculture

Namibian Police Force
Nyae Nyae, Nkurenkuru & Simanya stations & barracks

Namibian Defence Force
Nukwa Military Base HV/LV electrical reticulation

Ministry of Health (MoHSS)
Okakarara, Rundu, Tsumeb & Okahandja hospital works

University of Namibia
UNAM Main Campus Clinic & tertiary facility works

NAMCOL
Rundu Phase 2 Centre & regional HVAC installations

MVA Fund Namibia
Ongwediva Phase II electrical engineering & installation

National Housing Enterprise
Kaisosi Rundu 63-house delivery & bulk reticulation

NIDA / NDC Namibia
Omulunga Community Market & Ongenga Business Estate

Ongwediva Town Council
Ongwediva Social Housing Phase II on Erf 4797

Oshakati Town Council
Ekuku Township Phase 2 bulk electrical services

Rundu Town Council
Kaisosi NHE Phase I housing & township electricals

Emcon Consulting Group
Consulting partner on Rundu VTC & Nkurenkuru

WML Consulting Engineers
Consulting partner on Omusati Regional HQ reticulation

Aurecon Consultancy
Engineering partner on Simanya NAMPOL roads & works

Jacobs Engineering
Consulting engineer on MVA Fund Ongwediva Phase II

FULL ROSTER OF ASSOCIATED ARCHITECTS, QUANTITY SURVEYORS & CONSULTANTS

- Barnard Mutua Architects
- Agustono Ferreira Architects
- Conselect Engineering
- AIJ Consulting / Project Cost
- Namibia Development Corp (NDC)
- Kondjeni Kandji Architects
- Robert Lock Architect
- Consulting Services Africa
- RFPQS Quantity Surveyors
- Ministry of Defence / MAWF / MoHSS
- Kenny McNamara Architects
- Richard Frankle & Partners
- V Fischer-Buder Consulting
- Jacobs Engineering Consulting
- Tangi Trading Enterprise CC

Namibian Civic, Tertiary & Infrastructure Portfolio

TERTIARY HEALTH & EDUCATION

UNAM Clinic Main Campus & UNAM Ongwediva Facilities

Employer: University of Namibia (UNAM)
Consultant: Agustono Ferreira Architects | 12 Months | N$ 8,000,000.00

HEALTH & CORRECTIONAL

Divundu Correctional Facility Hospital & Programme Areas

Employer: Ministry of Safety & Security / Works
Consultant: Barnard Mutua Architects | 18 Months | N$ 13,000,000.00

MUNICIPAL POWER

Ekuku Township Phase 2 — Bulk Electrical Services

Employer: Oshakati Town Council
Consultant: Consulting Services Africa | 8 Months | N$ 13,608,000.00

DEFENCE & POLICE

Nyae Nyae Police Station and Barracks Complex

Employer: Ministry of Safety & Security / Works
Consultant: Kondjeni Kandji Architects | 24 Months | N$ 43,000,000.00

CIVIC SOCIAL HOUSING

Ongwediva Social Housing Phase II (Erf 4797)

Employer: Ongwediva Town Council
Consultant: AIJ Consulting | 12 Months | N$ 3,400,000.00

MASS HOUSING (63 UNITS)

Construction of 63 Houses at Kaisosi Rundu NHE Phase I

Employer: Rundu Town Council / NHE
Consultant: AIJ Project Cost Consultants | 24 Months | N$ 19,445,350.00

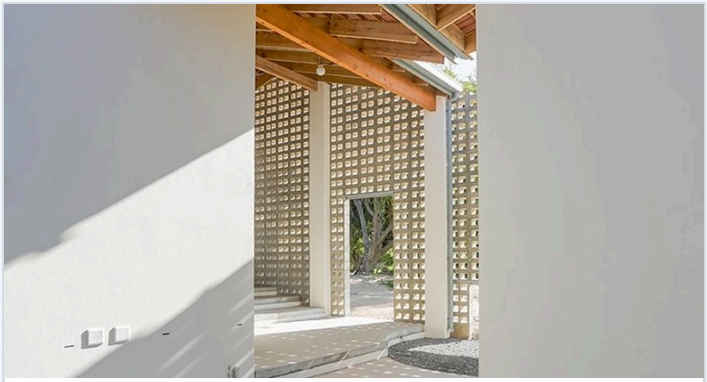

Campus, Hospital, Electrical & Regional Works

EDUCATION & TRAINING

Rundu Vocational Training Centre & Campus Electricals

Employer: Ministry of Education / Higher Education
Consultant: Emcon Consulting Engineers | Value: N$ 4,183,637.10

POLICE INFRASTRUCTURE

Nkurenkuru Police Station & Sub-Regional Office

Employer: Ministry of Safety & Security — NAMPOL
Consultants: Robert Lock Architect / Emcon | Combined: N$ 4,310,514.95

DEFENCE RETICULATION

Nukwa Military Base Reticulation (Zambezi) & Omusati HQ

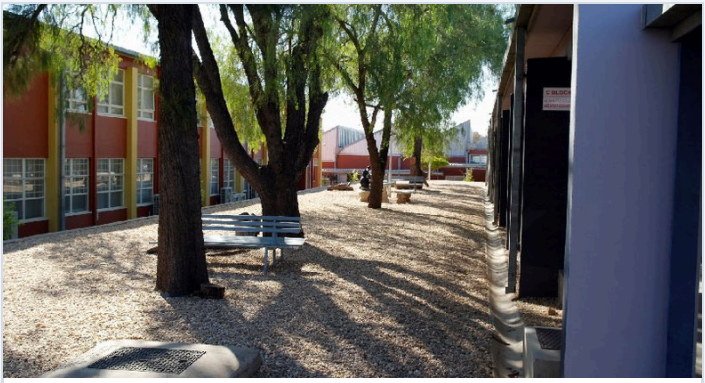

Employer: Ministry of Defence / MAWF
Consultants: V Fischer-Buder / WML | Combined Value: N$ 5,568,235.00

ROADS, PAVING & CIVILS

Simanya Completion of Accommodation, Charge Office & Roads

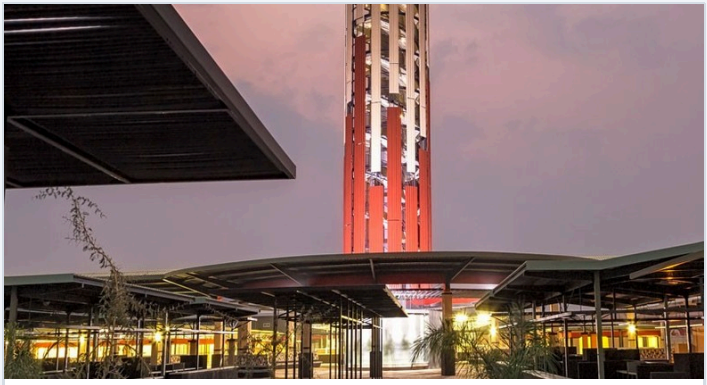

Employer: Ministry of Safety & Security — NAMPOL
Consultant: Aurecon Consultancy | Value: N$ 4,843,162.03

REGIONAL HOSPITALS

Okakarara, Rundu, Tsumeb & Okahandja Hospital Works

Employer: Ministry of Health & Social Services
Consultants: Richard Frankle / RFPQS / Tangi | Combined: N$ 7.46M

RURAL ENTERPRISE

Omulunga Community Market (Onayena) & Ongenga Estate

Employer: Namibia Development Corporation (NDC)
Consultant: Conselect Engineering | Combined Value: N$ 2,876,707.49

Complete Project Register — Contracts 01 to 13

M & M Engineering & Consultancy

Verified contract schedule executed across Namibia for public authorities, parastatals and institutional employers (consultant firm references retained; personal contacts omitted for public privacy):

#	Project Name	Principal Employer	Consulting Firm	Duration	Value (NAD)
01	**Divundu Correctional Facility Hospital and Programme Areas**	Ministry of Safety & Security & Ministry of Works	Barnard Mutua Architects	18 Months	**N$ 13,000,000.00**

Major Tech Measuring Wheel	Survey Hand Tool	–	**3**
Hellermann Tyton Extension Ladder	Access Equipment	–	**4**

3 Owned Site Vehicles
MAN 8-Ton 4x4 Crane Truck + 4x4 Utility Fleet

14-Ton Stringing Sets
Pulleys, Chain Blocks, Drum Stands & Clamping Shoes

10 kV / 1,000V Test Suite
Calibrated Insulation, Earth, Loop & Phase Meters

Statutory Mandate, Policy Statement & Organisation

M & M Engineering & Consultancy

NAMIBIAN STATUTORY OHS COMPLIANCE FRAMEWORK

Governing Legislation: The Constitution of the Republic of Namibia · Labour Act, 2007 (Act No. 11 of 2007) · Government Notice No. 156 of 1992 ("Regulations Relating to the Health and Safety of Employees at Work") · Presidential Proclamation No. 10 (Part XI, Section 101).

1. Statement of General Policy

- Provide adequate control of health and safety risks arising from all work activities.
- Consult actively with employees and safety representatives on workplace health and safety.
- Provide, inspect and maintain safe plant, lifting gear and calibrated equipment.
- Control safe storage, handling and disposal of hazardous substances (COSHH).
- Deliver documented induction, task instruction, supervision and competency training.
- Prevent workplace accidents, industrial injuries and occupational diseases.
- Review and update this policy annually or immediately after site/statutory changes.

2. Safety Management & Governance

- **Directors & MD:** Hold overall legal responsibility; fund safety priorities annually.
- **Safety Officer:** Audits risk assessments, registers, PPE issue, permits and training.
- **Line Managers & Supervisors:** Enforce safe method statements and daily housekeeping.
- **Safety Representatives & Committees:** Conduct quarterly inspections; committee convened within 3 months of request.

3. Risk Assessment & Hierarchy of Control

Written risk assessments cover routine and non-routine operations, contractors and members of the public using the five-tier control hierarchy:

1. **Eliminate** hazardous activity wherever alternative work methods exist.
2. **Substitute** equipment or materials for lower-hazard alternatives.
3. **Isolate or segregate** hazards via physical barriers and interlocked guards.
4. **Apply engineering controls** (LEV, enclosures, ergonomic station design).
5. **Issue compatible PPE** as secondary protection where residual risk persists.

4. Right to Stop Unsafe Work

All employees, subcontractors and visitors must stop any unsafe activity immediately if guarding is missing, electrical plant is defective or unsafe site conditions develop, reporting directly to the Safety Officer or Supervisor without delay. No employee is charged for mandatory OHS training or PPE.

INDUCTION & ZERO-CHARGE TRAINING MANDATE

Every employee and site subcontractor receives documented induction prior to site access, verified task competence certification and full employer-funded personal protective equipment.

Fire, Electrical, Machinery, Lifting & Incident Reporting

M & M Engineering & Consultancy

5. Fire Safety & Emergency Response

- Means of escape, fire doors and exit routes kept unlocked and unobstructed at all times.
- Weekly alarm checks; monthly user gauge/seal inspections on portable fire extinguishers; annual external certification (GN 156 Chapter 3).
- Fire drills conducted during employment month 1, 3-monthly for night shift and 6-monthly for day teams.
- Immediate isolation and emergency brigade dispatch for any gas leak or ignition event.

6. Electrical Safety & Lockout/Tagout

- Complies with GN 156 Chapter 9; zero unqualified work on live electrical installations.
- Portable tools protected by residual current circuit breakers (RCDs); trailing leads barred from walkways.
- Machinery cleaning, maintenance or unguarded repair permitted only after electrical isolation, physical lock-off and tagging.

7. Lifting Equipment & Machinery

- Cranes, excavators, forklifts, telehandlers, HIAB lorry loaders and hoists carry stamped Safe Working Load (SWL) and valid test certificates.
- Pre-service examination prior to initial deployment and after site re-assembly; statutory examinations at 6- or 12-month intervals.

8. Accidents, Near Misses & Statutory Reporting

- All injuries, first-aid events and near misses logged on Company Accident Forms and investigated without delay.
- **Ministry of Labour / Health Notification:** Fatalities, major injuries (fractures other than digits, amputations, dislocations, loss of sight, electric shock/burns >24h hospitalisation, acute toxic/biological illness), members of public hospitalised from site, >7 consecutive lost-time injuries (reported within 15 working days), and dangerous occurrences (crane failure, overhead powerline contact, scaffold collapse >5m, pipeline incident).

9. COSHH, Noise, Vibration & Manual Handling

- **COSHH:** No unassessed chemicals permitted on site; SDS sheets kept on site; strict ban on mixing chemical products.
- **Hand-Arm Vibration (HAV):** Daily EAV 2.5 m/s² A(8); mandatory ELV cap 5.0 m/s² A(8).
- **Whole-Body Vibration (WBV):** Daily EAV 0.5 m/s² A(8); mandatory ELV cap 1.15 m/s² A(8).
- **Manual Handling:** Task, load, environment and individual capability assessed prior to lifts; hoists/trolleys prioritised.

STATUTORY INSPECTION CADENCE

Weekly alarm testing · Monthly extinguisher & RCD inspection · Quarterly safety committee audits · 6–12 monthly lifting & HV calibration re-certification.

Workplace Welfare, PPE & Site Safety Personnel Register

M & M Engineering & Consultancy

10. Workplace Welfare, Signs & Edge Protection

- Minimum 11 m³ room volume per worker; clear pedestrian/vehicle segregated traffic routes and daily waste removal.
- Guardrails at minimum 1,100 mm height plus mid-rail wherever falls ≥ 2 m (or over hazards) can occur; fragile roofs clearly signed.
- Potable drinking water, hot/cold sanitary washing stations, lockable changing areas and clean meal facilities separated from dusty work areas.
- Mandatory Prohibition, Warning, Mandatory and Emergency safety signage compliant with national colour standards.

11. PPE Standards & Contractor Permits

- Issued PPE includes steel-toe footwear, high-visibility vests, task-rated gloves, eye/hearing protection, harnesses and weather gear.
- Theoretical and practical fitting training documented before issue; defective or contaminated PPE removed from service immediately.
- External contractors must submit OHS Policy, Risk Assessments, Chemical Assessments and Liability Insurance prior to arrival, plus obtain Permits to Work for hot, gas, electrical, height or confined-space entries.

Appendix 1: Project Site Appointed Health & Safety Personnel

Completed and posted visibly on every active M & M construction notice board prior to site handover:

Statutory Role	Appointed Person(s)	Contact Telephone	Site / Project Ref
Safety Officer(s)	1. _____ 2. _____	_____ _____	_____
Safety Representative(s)	1. _____ 2. _____	_____ _____	_____
First Aid Personnel	1. _____ 2. _____	_____ _____	_____
Fire Safety Wardens	1. _____ 2. _____	_____ _____	_____
Safety Committee Chair	1. _____	_____	Date: ___/___/20___

POLICY ENDORSEMENT & STATUTORY REVIEW CYCLE

This Occupational Health & Safety Policy Manual applies across all offices, plant yards and active construction sites operated by M & M Engineering & Consultancy CC under the Labour Act, 2007 (Act No. 11 of 2007) and Government Notice No. 156 of 1992. Reviewed annually and re-endorsed upon major legislative or site scope changes.
